STATEMENT OF SUBSTANCE OF INTERVIEW UNDER 37 CFR §1.133(b)

Sir:

In response to the personal Examiner Interview held on November 15, 2007, please consider the Statement of Substance of Interview in the above-identified application as follows:

Application No. 10/903,007
Docket No. NEG-371US

I. STATEMENT OF SUBSTANCE OF INTERVIEW

The following is Applicant's Statement of Substance of Interview held with the Examiner of Record in the above-identified application on November 15, 2007.

Applicant's representative demonstrated that the primary references to Hiroyuki, Sugawara and Fukashiro all fail to teach or suggest Applicant's claimed invention since each reference includes a "backup" or a "standby" use communication line not reserved for normal communication, but reserved only for communication when a failure in a primary communication line occurs.

Applicant will further propose an amendment that further defines a "service line" to a more commonly used expression in the telecommunication field of art to denote a primary communication line unreserved for exclusive communication in a communication failure or backup communication state of a primary communication line.

The Examiner stated that the current amendment would necessitate a new search and further consideration and would thereby issue and Advisory Action.

Application No. 10/903,007
Docket No. NEG-371US

II. FORMAL MATTERS AND CONCLUSION

Should the Examiner find the application to be other than in condition for allowance, the Examiner is requested to contact the undersigned at the local telephone number listed below to discuss any other changes deemed necessary in a telephonic or personal interview.

The Commissioner is hereby authorized to charge any deficiency in fees or to credit any overpayment in fees to Attorney's Deposit Account No. 50-0481.

Date: Nov. 16, 2007

Respectfully Submitted,
